There is a huge difference between professional festoon lights - the Tronix kind - and the much cheaper party lighting products you can find online or at any DIY or discount store. Professionals know this, but end customers often don't. For safe use, long-term durability, and flexibility in custom-made results it is important to pay attention to this. When looking for sustainable product solutions to count on all-year round, poor product decisions will ultimately make you regret putting price first.

This set of festoon lights consists of: 2x 585-106 + 1x 585-110.

Features

- Set of festoon lights including power cable
- IP65 (cable and sockets) IP44 (female/male connector with end cap)
- Professional set of festoon lights made of high quality rubber with molded sockets. Excluding bulbs, including power cable
- Connect up to 200 meters / 2000W

Technical specifications:

Product Name	Festoon light | 100m | 200pcs E27 socket | incl. power cord
Ean	8714984947078
Outer box qty	1st
Lamp type	LED exchangeable
Number of light points	200
With light source	No
Connected load	2500W
Suitable for outdoor use	Yes
Voltage type	AC
Couplable	Yes
Type of control gear	Not required
