tronixlighting.com

An alternative lens for the 200W floodlight pro series.

The Floodlight for professional use is ideally suited for "heavy" applications. Think of areas where the lighting is mostly exposed to external weather conditions. Although this fixture has a favorable IP rating of IP66, it is also equipped with an external air pressure valve. This keeps air pressure inside and outside the fixture always the same and moisture inside the fixture has no chance. With various lens options optionally available, these Floodlights are also suitable for:

Lighting large buildings such as churches or historic buildings.
Illuminating tennis courts or other sports fields.

Technical specifications:

Product Name	Floodlight pro || lens for 200W | 30°
Ean	8714984937062
Outer box qty	50st
Colour	Aluminium
Material	Plastic
