The Tronix 'Ceiling light bar' is especially developed for the HeartFelt® Modular and Acoustic Ceiling system: an advanced system for architects, installers and building owners that delivers the right acoustics in every single room, setting or environment.

This sophisticated 'light bar' can easily be attached to any existing HeartFelt® ceiling carrier system with mounting brackets to hold them in place. They can be applied in one single line, in a more playful way, or just in the most efficient way possible.

How it works

1. Choose the fixture
2. Use a mounting bracket for the existing HeartFelt® ceiling: 40HL55, 40HL80 or 40HL105.
3. Connect multiple fixtures to create a single in-line effect (combine with coupler 179-050)
4. Choose one trailing edge or DALI dimmable driver for each luminaire. Every driver includes a metal mounting plate for fixture attachment.

Technical specifications:

Product Name	Mounting brackets 2pcs ceiling light bar|| HeartFelt 40HL105
Ean	8714984937512
Outer box qty	1st
Colour	Aluminium
