Pro System Modular 36V is a low voltage modular lighting system for creating safe lighting designs in public places such as neighborhood parks, shopping centers and squares.

Are you already familiar with Tronix Pro System Modular 36V? Then you are probably also aware of the endless possibilities in lighting design and applications!

Features

- IP44
- Safe lighting designs due to the low voltage 36V
- Advanced material composition for an even longer life and greater ease of use
- Max. 50 meters in one single length. Connect more lengths to one power supply? Then work with dividers to create multiple lengths of max. 50 meters each.
