15.11.2026 - Disclaimer: information subject to change.

The Multi-X is a central junction component that allows multiple profiles to converge at a single connection point. When combined with the Multi-X base and the corresponding Multi-X connector, up to six profiles can be connected to one point from different directions. This enables star-shaped and complex lighting structures to be realised in a clear, structured, and technically manageable way.

Use in combination with TZ31/32 to connect the profiles.

Technical specifications:

Product Name	T48/20 | white | TS1 | multi X base TZ30 | 6A
Ean	8714984955820
Outer box qty	1st
Colour	White
Type	Connector
Width	30mm
Height/depth	35mm
Input voltage tracklights	48V
Number of cores	4
Nominal cross section	0.75mm??
Warranty	5 years
Type of accessory/spare part	Coupler/connector flexible

ø38 mm
