LED tree lighting with 24V low voltage provides a tree with beautiful light, while also providing safe installation. The LEDs feature a transparent housing, allowing the lights to create a beautiful all-round appearance. Each set is easily connected, allowing you to connect up to 63 meters of tree lights to a single power supply.

### Features

- 24V low voltage, ideal for safe installation in public areas
- Linkable on two sides (in and out)
- Easy in use
- Choice in length and color for customized light designs for small to medium-sized trees
- Can be cut into 90cm lengths if desired
- Max. 63 meters in one single length. Connect more lengths to one power supply? Then work with dividers to create multiple lengths of max. 63 meters each.

### Technical specifications:

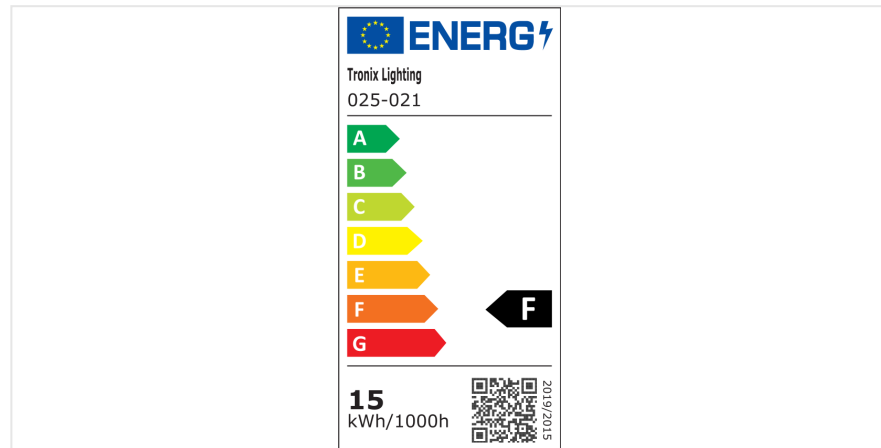

|                           |                                                  |
|---------------------------|--------------------------------------------------|
| Product Name              | Tree light pro 24V   63m   green wire   6500K CW |
| Ean                       | 8714984009127                                    |
| Outer box qty             | 8st                                              |
| Lamp type                 | LED not exchangeable                             |
| Number of light points    | 420                                              |
| With light source         | Yes                                              |
| Connected load            | 15W                                              |
| Suitable for outdoor use  | Yes                                              |
| Voltage type              | DC                                               |
| Couplable                 | Yes                                              |
| Type of control gear      | LED operating device voltage-controlled          |
| Input voltage tracklights | 24V                                              |
