TRONIX

Before first use

Before getting started with this product, it is advisable to check the order completeness and any damage. If this is the case, please contact Tronix Lighting.

Description

Using this set of tree lights, you can provide a tree with beautiful, atmospheric light. This set is not too bright, making it extremely well suited as decorative mood lighting for any season.

Features

- Connectable on two sides (in and out);
- Strong and pliable rubber for indoor and outdoor use;
- Compatible with power supplies 018-001, 018-002, 018-003, 018-004 and 018-005;
- Choice between lengths of 4, 10 or 21 meters.

Installation

1. Remove the product and associated parts from the packaging;
2. Place the tree light in the chosen tree and distribute the lights properly. Place the existing driver in a safe place (for example, in the crown);
3. Connect to the corresponding adapter cable and close this connection using the coupler;
4. Check the complete installation after the tree lights hang in the tree. Plug it in when you are ready and enjoy the light.

Safety

Safety is a top priority at Tronix Lighting. Therefore, we heartily recommend that you follow the following steps closely:

- Keep this manual carefully for future reference;
- Choose a qualified electrician while installing, maintaining or inspecting this product;
- Never look directly into a light source to avoid possible damage to the eye;
- Always ensure that the relevant power group is on non-active when the product is connected;
- Use only recommended combinations (LED drivers, controllers or dimmers) to avoid injury or damage to the product.

Technical problems and repair

Should a product not work properly after installation, or if the product exhibits problems over time, it is advisable to check the following elements:

- Check the wiring and installation of your product;
- Check for the presence of interfering elements such as dust, water or other electronics;
- If possible, try disconnecting the product and testing it in another location to rule out a problem at the location;
- Should you be dealing with a WIFI-based product, check and reset your router's settings.

Should the product still not work after testing, it is recommended to send it in for inspection and/or repair. To do so, please contact Tronix Lighting using nearby details and proof of purchase (packing slip).
