**TRONIX**

## Before first use

Before getting started with this product, it is advisable to check the order completeness and any damage. If this is the case, please contact Tronix Lighting.

## Description

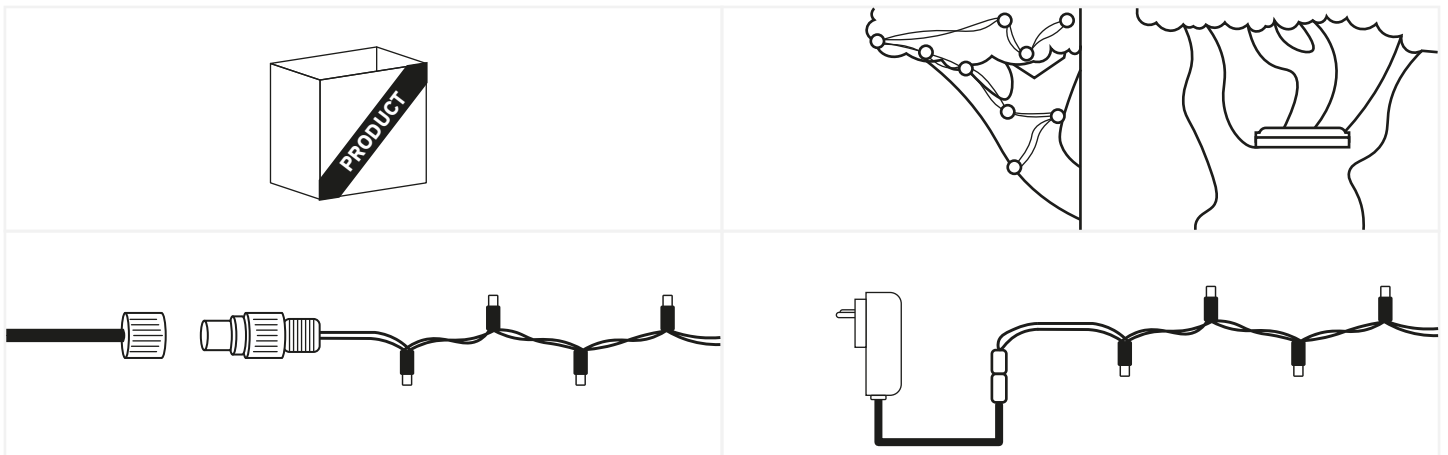

Using this set of tree lights, you can provide a tree with beautiful, atmospheric light. This set is not too bright, making it extremely well suited as decorative mood lighting for any season.

### Features

- Connectable on two sides (in and out);
- Strong and pliable rubber for indoor and outdoor use;
- Compatible with power supplies 018-001, 018-002, 018-003, 018-004 and 018-005;
- Choice between lengths of 4, 10 or 21 meters.

## Installation

1. Remove the product and associated parts from the packaging;
2. Place the tree light in the chosen tree and distribute the lights properly. Place the existing driver in a safe place (for example, in the crown);
3. Connect to the corresponding adapter cable and close this connection using the coupler;
4. Check the complete installation after the tree lights hang in the tree. Plug it in when you are ready and enjoy the light.

## Safety

Safety is a top priority at Tronix Lighting. Therefore, we heartily recommend that you follow the following steps closely:

- Keep this manual carefully for future reference;
- Choose a qualified electrician while installing, maintaining or inspecting this product;
- Never look directly into a light source to avoid possible damage to the eye;
- Always ensure that the relevant power group is on non-active when the product is connected;
- Use only recommended combinations (LED drivers, controllers or dimmers) to avoid injury or damage to the product.

## Technical problems and repair

Should a product not work properly after installation, or if the product exhibits problems over time, it is advisable to check the following elements:

- Check the wiring and installation of your product;
- Check for the presence of interfering elements such as dust, water or other electronics;
- If possible, try disconnecting the product and testing it in another location to rule out a problem at the location;
- Should you be dealing with a WIFI-based product, check and reset your router's settings.

Should the product still not work after testing, it is recommended to send it in for inspection and/or repair. To do so, please contact Tronix Lighting using nearby details and proof of purchase (packing slip).
